

1st Meeting of the
Morgan County Geocaching Club
and launch of the
MoCoExpo Geotrail!

WHAT IS GEOCACHING?

If you've been meaning to find out more about Geocaching, but didn't know where to go, or if you've been hoping to find a group of enthusiastic geocachers nearby to share your obsession, here's your chance! Join us for the first meet-and-greet of the **Morgan County Geocaching Club!**

Geocaching is an outdoor treasure hunt game using GPS-enabled devices. Participants navigate to a specific set of GPS coordinates and then attempt to find the geocache (container) hidden at that location. To make this event interesting, there have been several EASY caches placed around Morgan County. Most are within walking distance of, or a short drive from, Berkeley Springs State Park. Find caches and earn great prizes! **Be the first to find them all to win a special prize! And because we want to encourage families to participate, there will be several prize levels, so you only have to find a few for a chance to win!**

ONE prize per family in the 10 and 15 cache levels.

GET READY TO GEOCACHE

To access the coordinates for the 15 MoCoExpo Geotrail caches, Use the recommended app for your device. Use the GC codes on your passport, (you will receive when you sign the event log) to identify the caches that are part of the trail. **BE SURE TO SIGN THE LOG AT EACH CACHE!**

iPHONES:

Download **geocaching intro** app from the app store. (there are 2, choose the FREE one.)

ANDROID PHONES:

Download c:geo from the Google Play store.

EVENT GC CODE:

GC777KH
